Yes Tony I know your status and actually have sat in your training as RSO ...you are cleared. Also since I don't have access to H&S records outside of R8, the responders need to coordinate with their SHEM

Prior to the arrival of CISM folks they need to have a medical screening if they are not in medical surveillance and they need to have at minimum the 24 hour field health and safety course completed. Have these two items been confirmed through their regions Safety Health and Environmental Manager?

Hey Johanna – Thanks for dealing with this. I am going to punt to Janice Pearson on this (AC logistics/resources) since AC originated the order. I will defer to Janice for the 213 process.

Thanks Janice! ☺
